## Work Experience

---

### Technobotsystem

Surat

Reactjs Developer

June 2023 - Current

- **Developed state management solutions** using Redux and React Context API, ensuring consistent application state across various components and improving the scalability of the frontend architecture.
- **Created reusable UI components** with a component-driven architecture, reducing development time and ensuring consistency across the application.
- **Collaborated with backend teams** to integrate APIs seamlessly and ensure smooth data flow between the frontend and backend, resulting in a more cohesive user experience.
- **Worked in an Agile environment**, participating in sprint planning, code reviews, and continuous delivery processes to meet project deadlines and deliver high-quality code.

## Projects

---

### Sneaker-Head
